1. BACKGROUND INFORMATION

Locating the LED Unit and LED Programme

The Local Economic Development (LED) Unit is located within the Development Planning Services department. In line with its mandate, the Unit was established to stimulate and support sustainable economic development. Its programme is designed to support local stakeholders in addressing market failures, and human and institutional capacity limitations that act to exclude general citizens from the mainstream economy and thus perpetuate unemployment and poverty. In summary, the focus of the LED Unit is thus to create an enabling environment for the growth of existing businesses and establishment of new businesses whilst at the same time empowering the rest of the local stakeholders in their quest to create employment opportunities and local economic stability.

Problem statement & project rationale

In Ray Nkonyeni Municipality local economic development facilitation is mainly guided by the IDP, Local Economic Development Strategy and the municipality's 20-year Strategic Growth and Development Plan. As part of developing the local economy, Ray Nkonyeni Municipality identified the need to position the area as a film destination. The purpose is to attract more feature and commercial films to be shot within the municipal borders. In line with this objective, the municipality developed the Film By-Law, which was approved and gazetted in 2019. The Film By-Law makes provision and thus guide on the film application processes, which includes the film regulatory committee. However, the challenge that has been experienced regarding positioning RNM as a film destination is not having a database of possible film locations. This has led to the municipality missing out on potential films that would bring revenue and grow our footprint in the film industry. To address this shortcoming, the municipality has resolved to appoint a service provider that shall be tasked with formulating and developing a physical and digital film locations database.

Purpose of the Terms of Reference

The purpose of the Terms of Reference is to specify to the prospective Service Providers the technical and methodological requirements for the execution of this project. The Terms of Reference specify the objectives of the project and the activities to be undertaken in the course of project implementation. Such TORs further specify the anticipated milestones and the methods of verification against the desired outputs.

2. OBJECTIVES

Overall objective

The overall objective of this exercise is to formulate hard copy as well as digital (still pictures and short videos) film locations database, which at the very least will enable RNM to provide and suggest locations to film locations scouts and film productions.

Specific objectives & output

The appointed Service Provider shall be required to, amongst other things execute the following tasks:

- Perform a detailed analysis of potential film locations in RNM, in both rural, township and urban areas informed by an analysis of the film industry requirements.
- Identify and table the locations for consideration from a film location scouting perspective.
- Provide high resolution images (both still & short video clips) of each location from different angles and times; this must include aerial and drone-shot images.
- Provide information per location & the distance from main town of Port Shepstone to the site, further providing information on the ease of access to each location, such as direction.
- Provide geotagged images and images of the surrounding area of each location.
- Provide known environmental requirements for specific locations that may have environmental issues attached to them.
- Produce a digitised, high resolution film locations database of the municipality, which will be further placed in various platforms such as municipal website etc.

3. SCOPE OF WORK & ACTIVITIES TO BE EXECUTED

Project Inception

- (a) The Service Provider is required to meet the department as soon as possible following notification that the tender was successful to refine and finalise all matters that need to be addressed.
- (b) The Service Provider is required to provide a detailed inception report, covering methodology, activities, effective stakeholder participation process and timeframes and associated resource allocations to successfully complete the project for incorporation in the Service Level Agreement between the parties.

Situational Analysis

- (a) Conduct a brief study on the potential film locations such as, but not limited to different types of roads, rivers, buildings, beaches, rural settings and forests, in order to determine how to position RNM as a film destination

RNM Online Film Locations Database

- (a) In line with specific objectives and outputs as indicated above, conduct a stakeholder participation process, that is engaging with communities and tribal authorities to inform them of the process and ultimately formulate a draft film location database to be tabled to Portfolio Committee and Council for final approval and adoption.

4. OUTPUTS & DELIVERABLES

CERTIFICATE OF INDEPENDENT BID DETERMINATION MBD9

1. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
2. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - (a) take all reasonable steps to prevent such abuse;
 - (b) reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - (c) cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
3. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
4. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
