**REMOVAL OF SAND FROM TIDAL POOLS: SOUTHPORT, SUNWICH PORT, RAMSGATE, AND MARINA BEACH**

DESCRIPTION/SPECIFICATION	QTY	UNIT PRICE		AMOUNT (EXCL VAT)	
		R	C	R	C
<p><b>A combination</b> of dredging, water jetting and mechanical means has to be used by service providers to ensure a well cleaned pool and the maximum amount of sea sand has been removed. Water jetting is an important part of Tidal pool cleaning as there are always corners and small spaces where a mechanical bucket cannot effectively scoop sand and would also damage the under lying rock. Water jetting is therefore a non-negotiable process which has to be used by the service provider when removing sea sand from Tidal pools. During the sand removing process the Tidal pool valve must be opened to check its gasket seal for leaks and replace if necessary. The cover plate must be replaced with 4 stainless steel nuts and bolts which are currently in place but in the event of loss the service provider will be required to replace such at his cost. Required machinery at Southport will be: Excavator</p>	4				
<p><b>NB:</b> The successful service provider is reminded that he must familiarize himself with the various sea tides and times that they occur as the removal of sand from a Tidal pool should take place during spring tides which occur twice a month only. Advice in this matter can be obtained from the RNM's Beach Superintendent. The excavated sand must be placed in a position outside the pool that will assist the natural tidal movements to remove as much of the excavated sand as possible and not simply redeposit the sand in the pool during high tide. The successful service provider will be assisted in determining the area with the help of the Ray Nkonyeni Municipality's Beach Superintendents on site. The service provider must ensure that the area is closed off on a daily basis with danger tape when the process of sand removal from a Tidal pool is taking place to ensure members of public remain safe and clear from the area. Once the service provider has satisfied himself that the pool has been cleared of sea sand to the depth which was decided prior to the commencement of work it will be his duty to inform the RNM's Beach Superintendent to inspect the pool. The beach access point for mechanical machines will be discussed and shown to the Service Provider on site by the RNM's Beach Superintendent. Any deviation from this could jeopardize the service provider's contractual claims and be faced with Environmental Law Penalties.</p> <p>No cutting back of natural vegetation along any recognized servitude may be undertaken by the service provider to gain access to the pool without the RNM's beach superintendent approval and knowledge. If any of the above 2 points are not taken into consideration, then the Service Provider at his/her own cost will have to rehabilitate the damaged vegetation to the satisfaction of the Provincial Department of Environmental Affairs as well as facing any other penalties which DEA may subject him to in accordance with the Integrated Coastal Management Act. The RNM'S Beach Superintendent will not sign off any work unless he is satisfied with the end result. It is therefore essential that the service provider familiarizes himself with the requirements before he accepts the project. In short no payment will be made unless the service provider has satisfied the RNM's Beach Superintendent that the completed work has been done in accordance with the specifications listed a</p> <p><b>NB: THE FOLLOWING CRITERIA IS APPLICABLE AND COMPULSORY MINIMUM OF 3 (THREE) TRACEABLE APPOINTMENT LETTERS / OFFICIAL ORDER AND THREE COMPLETION CERTIFICATES IS COMPULSORY. ## **DECLARATION CERTIFICATE FOR LOCAL PRODUCTION AND CONTENT FOR DESIGNATED SECTORS**

This Standard Bidding Document (SBD) must form part of all bids invited. It contains general information and serves as a declaration form for local content (local production and local content are used interchangeably).

Before completing this declaration, bidders must study the General Conditions, Definitions, Directives applicable in respect of Local Content as prescribed in the Preferential Procurement Regulations, 2011, the South African Bureau of Standards (SABS) approved technical specification number SATS 1286:2011 (Edition 1) and the Guidance on the Calculation of Local Content together with the Local Content Declaration Templates [Annex C (Local Content Declaration: Summary Schedule), D (Imported Content Declaration: Supporting Schedule to Annex C) and E (Local Content Declaration: Supporting Schedule to Annex C)].

### **1. General Conditions**

- 1.1. Preferential Procurement Regulations, 2011 (Regulation 9) makes provision for the promotion of local production and content.
- 1.2. Regulation 9.(1) prescribes that in the case of designated sectors, where in the award of bids local production and content is of critical importance, such bids must be advertised with the specific bidding condition that only locally produced goods, services or works or locally manufactured goods, with a stipulated minimum threshold for local production and content will be considered.
- 1.3. Where necessary, for bids referred to in paragraph 1.2 above, a two stage bidding process may be followed, where the first stage involves a minimum threshold for local production and content and the second stage price and B-BBEE.
- 1.4. A person awarded a contract in relation to a designated sector, may not sub-contract in such a manner that the local production and content of the overall value of the contract is reduced to below the stipulated minimum threshold.
- 1.5. The local content (LC) expressed as a percentage of the bid price must be calculated in accordance with the SABS approved technical specification number SATS 1286: 2011 as follows:

$$LC = [1 - x / y] * 100$$

Where

x is the imported content in Rand

y is the bid price in Rand excluding value added tax (VAT)

Prices referred to in the determination of x must be converted to Rand (ZAR) by using the exchange rate published by South African Reserve Bank (SARB) at 12:00 on the date of advertisement of the bid as indicated in paragraph 4.1 below.

**The SABS approved technical specification number SATS 1286:2011 is accessible on [http://www.thedti.gov.za/industrial development/ip.jsp](http://www.thedti.gov.za/industrial%20development/ip.jsp) at no cost.**

1.6 A bid may be disqualified if –

- (a) this Declaration Certificate and the Annex C (Local Content Declaration: Summary Schedule) are not submitted as part of the bid documentation; and
- (b) the bidder fails to declare that the Local Content Declaration Templates (Annex C, D and E) have been audited and certified as correct.

## **2. Definitions**

2.1. **“bid”** includes written price quotations, advertised competitive bids or proposals;

2.2. **“bid price”** price offered by the bidder, excluding value added tax (VAT);

2.3. **“contract”** means the agreement that results from the acceptance of a bid by an organ of state;

2.4. **“designated sector”** means a sector, sub-sector or industry that has been designated by the Department of Trade and Industry in line with national development and industrial policies for local production, where only locally produced services, works or goods or locally manufactured goods meet the stipulated minimum threshold for local production and content;

2.5. **“duly sign”** means a Declaration Certificate for Local Content that has been signed by the Chief Financial Officer or other legally responsible person nominated in writing by the Chief Executive, or senior member / person with management responsibility (close corporation, partnership or individual).

2.6. **“imported content”** means that portion of the bid price represented by the cost of components, parts or materials which have been or are still to be imported (whether by the supplier or its subcontractors) and which costs are inclusive of the costs abroad (this includes labour or intellectual property costs), plus freight and other direct importation costs, such as landing costs, dock duties, import duty, sales duty or other similar tax or duty at the South African port of entry;

2.7. **“local content”** means that portion of the bid price which is not included in the imported content, provided that local manufacture does take place;

2.8. **“stipulated minimum threshold”** means that portion of local production and content as determined by the Department of Trade and Industry; and

2.9. **“sub-contract”** means the primary contractor’s assigning, leasing, making out work to, or employing another person to support such primary contractor in the execution of part of a project in terms of the contract.

**3. The stipulated minimum threshold(s) for local production and content (refer to Annex A of SATS 1286:2011) for this bid is/are as follows:**
